

"I have been very pleased with the overall result of my liposuction treatment. I have been amazed at the difference of having my upper abdomen treated along with the lower abdomen. The deep fold separating the two areas appears much softer attributing to the overall appearance of smoother less "poochy" skin. The experience has also aided as a catalyst for taking care of myself as a whole person and focusing on making better choices and what I hope to become permanent lifestyle changes."

"I cannot praise enough the care I received from Dr. Hardaway, her gentle touch and calm demeanor aided in my overall comfort level, as well as her clinical staff, Cindy and Robin, from pre-op to follow-up care they are very caring and fun ladies!" - Kristin (Actual patient of Dr. Christina Hardaway)
